Applicants agree with the substance of the Examiner Interview Summary mailed September 11, 2008. Specifically, Applicants' attorney brought to the Examiner's attention that the Interview Summary of the May 29, 2008 interview should be corrected to accurately reflect Applicant's discussion on May 29, 2008 that a very small substantially continuous gap is a significant improvement over a plurality of holes for venting vapor or steam from the mold cavity. The Examiner agreed with this suggestion, and this Interview Summary makes that correction of record.

Dated: October 14, 2008

Respectfully submitted,
